Subject: Request for review by COB April 3: letter to Navy re: HP retesting

Hi all, Thanks for your support earlier this week in reviewing the so-called “short” letter that Enrique sent the Navy on March 27 (also attached).

In advance of Enrique’s April 15 meeting with the Navy to discuss their radiation re-testing Workplan, the Five-Year Review, and their proposal to use RESRAD in lieu of the PRG calculator, we’d like to send them this longer letter (attached). Many of you have already reviewed this when Angeles Herrera sent it to HQ on March 7. We had to take a step back in response to the Navy’s March 15 letter and Enrique’s March 27 response. So we have revised it a bit and hope to finalize and send to the Navy later next week.

Any comments by COB Wed April 3 are appreciated.

Thanks,
John Chesnutt
